Old Photo Restorer

Upload a faded portrait or scanned family print and use this old photo restorer online to create one clean transformed result. The workflow is built for old photo restorer and colorizer tasks: repair scratches, remove cracks, reduce dust, correct fading, improve blur, add natural colorization, and upscale the final image without changing the person. Use the default prompt for a respectful restoration, or add details about the decade, clothing, skin tone, background, or how subtle the repair should be.

Restore and colorize this old photo into a clean high-resolution modern result. Repair scratche

Old Photo Restorer for Clean 4K Family Memories

Use nana img as an old photo restorer when a scanned picture has scratches, cracks, fading, blur, stains, or dull black-and-white tones. The page examples use comparison images so you can judge the repair quality, while the generator returns one restored output that is ready to save. Start with one family portrait, wedding print, school photo, military portrait, or childhood snapshot, then ask the AI old photo restorer to repair damage, add natural color, sharpen important details, and preserve the person's real identity.
